OUR IMPACT IN 2025

"We're lifting each other up on the mountain, helping each other be a brotherhood and sisterhood. We're figuring things out together, getting on our feet, going through the every day struggles together. I think that's really impactful."

- Youth Member

At Zero Ceiling, we empower youth to thrive. We give them the support they deserve: homes, jobs, community, and access to the outdoors. We help them build life skills on and off the mountain and set themselves up for the future.

2025 was officially the busiest ever year at Zero Ceiling! More youth took part in our housing, employment, and outdoor access programs than ever before. And we witnessed an amazing eleven youth graduate from our housing program and take the next step on their journey to adulthood!

This was only possible because of the incredible youth in our programs, and the ways they support and lift each other up. They - along with our amazing staff, Board, volunteers, and partners - make Zero Ceiling what it is: a unique community where everyone can thrive.

Your Support Matters!

[WORCA – Whistler Off Road Cycling Association](#)

WORCA is Whistler's mountain bike advocacy group, working with local and regional governments, First Nations, developers, utility operators, private landowners, the community forest and other stakeholders to keep our non-motorized trails open and accessible. Tenderfoot Boogie is working with WORCA to bring runners a great experience by accessing beautiful, well maintained biking trails. A portion of registration fees will be donated to WORCA to support trail maintenance efforts.
